### Letter for presumptive COVID-19 exposure of a staff member

Parents and Staff,

Brownsville I.S.D. has been notified that a staff member who works for \_\_\_\_\_ (campus) has had direct exposure to an individual who recently tested positive for COVID-19. The \_\_\_\_\_ (campus) staff member is currently self-quarantining at home, is not displaying any symptoms of the virus and has not tested positive for the virus.

\_\_\_\_\_ (campus) has been deeply sanitized and although schools and offices have been closed since \_\_\_\_\_ (closure date) and remain closed at this time, all Brownsville I.S.D. employees and students are instructed to continue to follow CDC guidelines and recommendations and to practice social distancing.

Based on the information that we have gathered, it has been determined that the end of the 14-day incubation period for anyone possibly exposed on campus to the staff member is \_\_\_\_\_ (date).

Out of an abundance of caution, we advise you to monitor your health, follow the CDC guidelines for people who have had close contact and contact your primary care physician if you develop symptoms.

Brownsville I.S.D. is continuing to monitor this situation and will provide additional information as needed.

Sincerely,

Dr. René Gutiérrez  
Superintendent of Schools
